SUMMARY

I am a passionate Front-end web developer and Data Analyst with strong skill set on design and problem-solving . Strong knowledge of HTML/CSS and JavaScript. Proficient in data analysis, data visualization, Microsoft Power BI, C, C++ . Additionally, I have basic knowledge of the MERN-stack, Git, GitHub, and artificial intelligence, and machine learning, Python.

EDUCATION

Bachelor of Technology | Maharana Pratap Engineering College | Minor in Computer science and engineering | Uttar Pradesh, Kanpur Nagar | 2021-2025

Intermediate | Pinnacle public school | Minor in Science | Rajasthan, Bhiwadi | 2019-2020

TECHNICAL SKILLS

Programming : C, C++, python, HTML, CSS, JavaScript

Database : PostgreSQL, MySQL

Web Frameworks: Bootstrap, React.js

PROJECTS

Grocery Store Product Management Website | https://github.com/AnkitMourya12/Grocery_Website | September 2023 – December 2023
- Discover how this innovative website aims to streamline product management for grocery stores, offering features like adding and deleting products, calculating prices, maintaining a product catalog and manage customer detail's.
- In this project, we will build a grocery store management application. It will be 3 tier application,
- Front end: UI is written in HTML/CSS/JavaScript/Bootstrap
- Backend: Python and Flask
- Database: MySQL

Diwali Sales Analysis | https://github.com/AnkitMourya12/Diwali_sales_Analysis_project | November 2023 - November 2023
- The project's primary focus to delve into purchasing power dynamics, specifically comparing male and female spending habits during the festive season. Utilizing pandas for data manipulation and analysis, numpy for numerical operations, and seaborn for data visualization, I dissected the trends.
- By exploring the data, the project drew meaningful conclusions about the relative purchasing power of males and females, contributing to a nuanced understanding of Diwali sales trends.

Tic Tac Toa Game | https://github.com/AnkitMourya12/tick_tak_toe_game | August 2023 - September 2023
- Tic Tac Toy Game a classic two-player game where participants takes turns marking Xs and Os on a 3x3 grid.
- The objective to form a horizontal, vertical, or diagonal line of three of the same symbol. The player who achieves this first wins the game. Tech stack: python.

Voting System | https://github.com/AnkitMourya12/Simple-votingSystem | August 2022 - December 2022
- By implementing this Voting System project in C, I aimed to demonstrate my proficiency in programming and problem-solving skills. This project not only emphasizes efficiency and security but also reflects my commitment to developing solutions that contribute to fair and transparent processes.

INTERNSHIP EXPERIENCE

Data Analyst | Excellerate | August 2023 - September 2023
- In my professional life, I aquaire the chance to spend two months working as a data analyst virtual Internship at Excelerate, where I developed my abilities in data analysis and visualization.

Project Intern | NullClass | May 2023 - July 2023
- At NullClass for three months as a Project Intern, which gave me the chance to develop my project management skills.

COURSEWORK

Data Structures and Algorithms, Machine Learning, Operating System, DBMS

INVOLVEMENT

Campus Ambassador | TRYST IIT DELHI | February 2023 - March 2023
- Through this position, I able to engage with the active tech community, which improved my networking abilities and broadened my perspectives on the field.

PERSONAL INFORMATION: Hobbies: Playing Leather Ball Cricket, Yoga, Cooking food.
